

# **WE HAVE A TILE FOR**

Incorporating designer tiles into the walls and steps of your pool, and even around your custom spa, creates a stylish look that you would see at an exotic resort or five-star hotel.

## **ANTHONY & SYLVAN STANDARD TILE COLLECTION**

Our wide selection offers designer tiles that are frost-proof and acid-resistant - so that your design will last in a variety of water and chemistry conditions. Our tiles come in an array of colors, patterns and finishes to complement any pool design.

**ADD A DECORATIVE TOUCH WITH** 

From indigenous local stone to brick or concrete, the number of finishes and configurations for your pool or spa perimeter is endless. In addition to being naturally beautiful, coping can keep your pool or spa cooler to the touch and safer for individuals getting in or out.

### **BRICK**

The classic bullnose brick coping is cost-effective and easy to maintain. In addition to being an incredibly durable material, the beautiful clay color of brick doesn't fade and is easy to clean.

# STONE

Stone coping comes in a variety of different colors and textures and can withstand many different temperatures. A natural stone surface is easy to clean while giving a unique look and feel.

# CONCRETE

Cantilever concrete is another coping that can be poured and molded into just about any shape or design, allowing for extreme customization. Additionally, concrete surfaces are incredibly durable and easy to maintain.

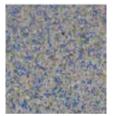

# THE REAL BEAUTY IS DW THE SURFACE

Enhance what's below the surface with unique colors and textures.

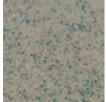

### **PLASTER**

#### **ANSYLBRITE**

Complement your pool with the world's most beautiful exposed aggregate finish. This premium-quality formula delivers outstanding color, luster and glamour to any pool. Its durable surface resists chipping and staining from harsh weather conditions and chemical usage.

Cobalt

**Emerald** 

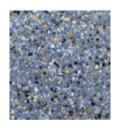

Granite

#### NATURAL PEARL

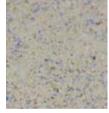

This smooth pebble pool finish takes any pool to new heights of dazzling luminescence. Its unique finish combines smaller, delicate hand-selected pebble aggregates with reinforced white Portland cement. The result is a pool finish that feels as smooth as the surface of a precious pearl.

Blue Black

Onyx Sapphire Please Note: Actual finish and water color may differ from digitally photographed and reproduced samples. The water's depth, angle of sunlight, surrounding environment, and proximity to a home can all be determining factors. Water color may differ slightly as variations in shade and contrast are natural. We strongly recommend viewing actual swimming pools in person before deciding on a color.
